Essential Base Resources Explained

Money & Banking

Managing two currencies (US Dollars and British Pounds) can feel tricky at first, but these on-base spots make it simple:

- **ATMs (Multiple Locations):** Located conveniently around the base, these machines dispense both USD (\$) and GBP (£) so you always have local cash ready for off-base trips.
- **Community Bank (Bldg 989):** Your local source for dual-currency banking. They can assist you with setting up accounts, exchanging currency, and establishing direct debits for UK utility bills.
